

All of your meeting information in one place

Introducing Joan on displays

A Joan solution for your own device

Want to leverage your existing AV equipment? Do it in the best possible way – with Joan on displays. Use your smart TV to show current and future meeting information like organizer names, the number of confirmed attendees and available rooms. An ideal solution for lobbies, office receptions, and rooms with large displays.

Compatible with

Works on

Smart TVs, tablets, computers, and digital signage systems.

Screen rotation

Adapts to any screen size in both landscape or portrait orientation.

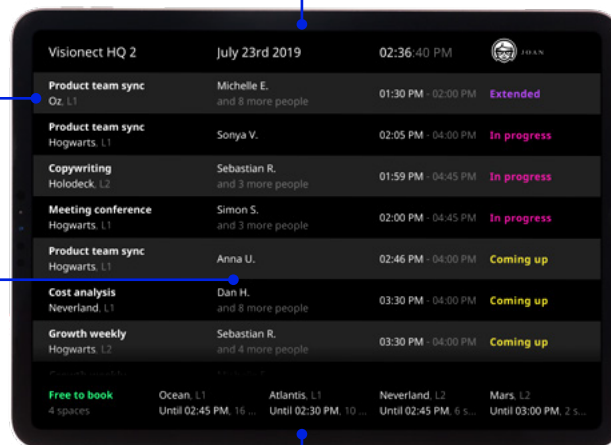

What Joan on displays can do for you

Eliminate time and space wasters by delivering scheduling and wayfinding information. Real-time and easily deployed, Joan helps you improve your meeting culture and maximize ROI on your existing AV equipment.

Display current date and time

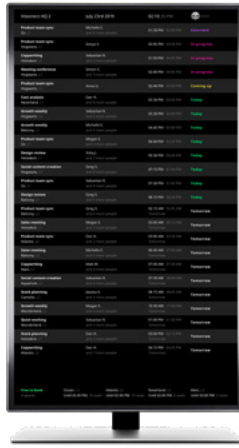

Show current and future meetings

Check the meeting organizer and number of attendees

Display available meeting rooms and seating capacity

Status board

Landscape position

To get Joan on displays you need

- A Joan Portal account.
- An Internet-enabled display.
- Joan's Premium plan subscription.

This is the main non-touch functionality for Joan on displays. It shows up to nine meetings when the screen is in a landscape position and up to 30 meetings when the screen is in portrait position. If there are more than nine or 30 meetings to display, the screen automatically switches to the next page.

Free 30-day Premium plan trial

Try the Status board functionality for free. When you create a Joan Portal account you'll receive free access to Joan's Premium subscription plan for 30 days. After that, to keep using Joan on displays you will have to subscribe to our Premium plan.

Using Joan's Status board functionality with the Premium subscription plan €19/month or €209/year per device

Complete room booking management system.

- Multiple room overview
 - Slack integration
 - Cisco Webex Teams integration
 - Room usage reports
 - Automatic guest welcoming emails
 - Automatic check-in and voice control
 - Individual room customization options
-

Enjoy all of Joan's features and a fully customizable office experience on your display device.

Joan on displays is a meeting-room booking solution by Visionect

VISIONECT

getjoan.com
info@getjoan.com

Visionect, the developer of Joan, is the world leader in deploying meeting room booking solutions on electronic paper and as a service. Joan on displays is part of the Joan family which also includes Joan 6, a touch e-paper device for ad hoc meetings, and Joan 13, a non-touch e-paper solution ideal for resource finding and scheduling.
